

# NSCAA High School Coaches Diploma

February 29 - March 2, 2008

University of Wisconsin Stevens Point  
Stevens Point, WI

Cost: \$200

The newest addition to the coaching education program, the 21-hour non-residential course is designed to address the many issues and responsibilities unique to high school coaches in this country.

The course curriculum, developed in cooperation with some of the most experienced and influential high school coaches in the United States, examines the distinctive role high school coaches play in the personal development of young players.

Some of the issues the course will deal with are:

- Developing a coaching philosophy
- Team Management (Pre-season training, team building, game day preparation issues, out of season play, ODP and club relationships, team rules, choosing team captains, parental issues etc.)
- Methods of coaching high school players
- Risk management for high school coaches
- College recruiting issues and helping players move to the next level
- Match analysis
- Practical field sessions
